UNIVERSITÀ DI ROMA

In the event of the withdrawal of one or more of the top 11 selected candidates, or if additional funding becomes available under budget item b) dedicated to Education and Training Costs, allowing an increase in the number of available positions, the ranking list will be scrolled down until all eligible candidates have been considered. This ranking list may be subject to scrolling in the case of withdrawal or failure to accept by an individual winner. Upon request by the candidate and verification of available financial coverage, it will also be possible to grant an extension of the mobility period beyond the initial 2 months (in any case, not beyond the project's end date) to requesting candidates, in order of their ranking. In the event of a tie between candidates, the gender balance criterion will be applied, and in case of a further tie, preference will be given to the younger candidate.
